MISSION

To ensure the quality of care given to patients, promote the welfare of all Cathlab personnel, and establish linkages with international organizations in the field of invasive cardiology and vascular radiology.

VISION

To be a globally recognized organization committed to the advancement of the standards of practice in the Cathlab.

13 June 2022

Dear Mr/Ms _____:

Good Day!

On the **27th and 28th of August 2022**, the Cathlab Associates of the Philippines (CLAP), Inc. will be holding its **7th Annual Convention** with the theme "**Feel the BEAT** (**B**ridging the Past, **E**ngaging the Present, **A**dvancing **T**owards the Future), at Taal Vista Hotel in Tagaytay City, Cavite.

The annual convention will bring together Cathlab professionals from across the country to discuss important issues related to the current and future track of the Cathlab practice in the Philippines. We have invited well-known speakers here and abroad to share their expertise, from whom we expect to gain new insights to further enhance our knowledge, skills and practice.

CLAP, Inc. is comprised of nurses, radiologic technologists, medical technologists and support staff working together as a team and is committed to the advancement of global standards of Cathlab practice and quality of patient care nationwide. Due to the increasing number of Cathlab facilities in the Philippines, this annual convention is an avenue for all staff to collaborate and learn best practices from each of the centers, advance technologies from our industry partners and engage in meaningful discussions, all geared towards making our respective institutions at par with the best in our field. As the Cathlab still remains as an unfamiliar unit in some hospitals, this convention is also fitting for all paramedical personnel in the wards and critical care areas to familiarize them on how Cathlab functions and its contributions to the change in healthcare that we have today and tomorrow.

In this regard, we would like to request your company for sponsorship for this event. Attached herewith are the details of the sponsorship packages as well as the scientific program for your perusal and consideration. We hope you could consider joining us in this event as we value the contributions of our industry partners who make this annual event possible. We look forward to working with you to make this convention a success.

Should you have any inquiries regarding this matter, you may call **Ms. Rhea B. Astorga**, our CLAP Secretariat at **+63905-804-8673** or **+63933-390-5227**.

Thank you very much and may God's blessings be with you and your family.

Sincerely,

PAUL II D. FRANCISCO, RN
President
